

Pentacon Six and Exakta 66 Service and Upgrade The way orders are dealt with from 01/01/2019

From 01/01/2019 we are again able to accept upgrade and service requests.

1. Waiting List

The waiting list is probably going to fill up quickly, so it is advisable to place your reservations *) - just by sending an email - sooner rather than later, but

not before 01/01/2019

to be precise: From 00:00 CET that day. This is UTC+1 which correlates to e.g. in USA = December 31st 2018 17:00 (UTC-6) to 15:00 (UTC-8) and so on

To give everybody an equal chance, **reservation requests placed before 01/01/2019 00:00 CET will *not* be accepted.**

2. Express Service

Once a month one express service can be purchased at a higher rate via eBay auction. Customers for whom an immediate service is a priority, have the opportunity to put in an offer. Apart from that we will consistently proceed according to the waiting list.

We hope that this way forward is a satisfactory solution for all customers.

*) Reservations are not binding for customers. Cancellation is possible without charges at any time.
